

PDF Workbench 1.7.xx - installation

The PDF Workbench enables a user to interact visually with a PDF document. It runs on PCs and laptops under Windows, versions 7 - 10.

The input files are labelled *filename.znr*.

They are zip files that include the original *filename*.pdf plus the XML files for all the pages.

Installation

<u>Appendix 1 – installation detail</u> <u>Appendix 2 – option settings</u>

ZANRAN

Installation

You should receive four files in a single .zip file:

- PdfWorkbenchSetup64.msi
- setup.exe
- MoneySupermarket Group-020.znr (a test document)
- PandL_Tags.xml (a test tagset)
- 1. Copy the .zip file to a new subdirectory on your C:\ drive and un-zip.

2. Double click on setup.exe, and follow the instructions. For a view of the setup screens, please see Appendix 1.

3. The executable is installed by default at: C:\Program Files\Zanran\Pdf Workbench 1.7.*xx*\ A shortcut icon will also be installed on your desktop for starting the software.

- 4. Test the installation by
 - 4.1 double-clicking on the executable to start the Workbench
 - 4.2 clicking on the 'File' menu at the top, and selecting 'Open Znr file'

4.3 browsing to open MoneySupermarket Group-020.znr. You should see a page from an annual report.

4.4 The first dialogue box will ask: 'Do you wish to analyse this document for totals, etc now?' This function will check that the totals add up. Click 'Yes'

5. Auto-backup: original znr files may be backed-up as date-stamped copies.

6. For further options for what you see - and what you can do – please see 'Tools', 'Options'. For details, please see Appendix 2.

To uninstall, please use Control Panel.
